

FIGMA ASSIGNMENT

As part of our next step to evaluate your skills, you are given an assignment. A successful completion of this assignment will have an interview process to secure your Internship with us.

Deadline : 17th March 2022

A local pizza store wants you to build a Design for listing his store's pizzas using Figma.

1. Build an Auth Page (Login Page : Name, Password, Confirm Password).
2. After sign in, the app shows a page where
 - Switching Themes(Dark and Light Mode)
 - Build Bottom Navigation Menu.
 - Multiple Cards listing Image, Name (On Hovering Price should be visible)
 - Footer with Social Media Icons
 - Payment Page (Credit card Account No. , Face Id Scan)

In case you are unable to successfully complete the Assignment, you will be evaluated based on:

- Understanding and attempts of UI and UX; other architectural/design patterns.

The Handover

Just make a repo on github (or any of its accessible alternatives) and shoot us a reply via this mail with the link to the task.

We really appreciate the time and effort it took to complete the task! We promise to return the favor as best as we can.

The Review

We believe that code is like humor. When you have to explain it, it's bad.

But do include a README file briefly describing your thought process and any other points you want to highlight. During the review we would look at the project structure, architecture and signs of good coding practices (Formatting/Naming Conventions/Comments)
